

Water Main along Ave M and 60th Street West

This project involves installing 1.25 miles of 36-inch pipeline along 60th Street West from Avenue L to Avenue M and along Avenue M from 60th Street West to 62nd Street West. This pipeline will connect the west side of the 2555 pressure zone to a future tank site at Avenue M and 62nd Street West. This project is currently in design and is expected to begin construction in Fall 2009.
